Mayor Hazel McCallion
and Members of Council

C.A. DATE DEC 10 1984

My position as City Manager since June 1977 has been extremely interesting and challenging. I have enjoyed working with Council, Department Heads and staff over the past seven years.

Recently I have deliberated over the possibility of leaving my position with the City. It is now evident that the time has come when a new lifestyle must be considered.

I have, therefore, decided to retire from my position as City Manager for the City of Mississauga effective May 15, 1985.

Respectfully submitted,

E. M. Halliday

Dear Mayor McCallion,

I would like to take a moment of your time to tell you what a great pleasure it was dealing with your Zoning - Occupancy Permit Department.

The person we dealt with was a Ms. Barb Young. Not only was she courteous, friendly and efficient, but I am sure she went far beyond what I normally have dealt with to be helpful.

Our company and myself are looking forward to conducting our business in Mississauga, thanks to the aid and assistance of people like your Ms. Young.

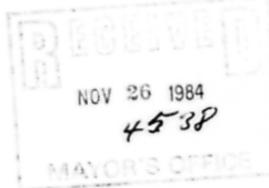

Sincerely,

Herb Taylor

Members:

It gives me great pleasure to inform you of a recent accomplishment of Mr. Robert Mahony, the Director of Community Centres for the Recreation and Parks in the City of Mississauga.

Mr. Mahony is a valued member of the Society of Directors of Municipal Recreation of Ontario. He has played an active role as a member, towards the advancement of the Recreation profession throughout Ontario. Added to his many accomplishments, Mr. Mahony has recently been awarded the designation of Fellow, through the presentation of a Fellowship Award.

Fellowship is an award bestowed upon a member in recognition of his or her contribution to the profession and to the Society of Directors of Municipal Recreation of Ontario. DEPARTMENT

Dear Mr. Julian:

I am pleased to advise you and Members of Council that the Society of Directors of Municipal Recreation of Ontario at their recent Annual Meeting held at Geneva Park, Orillia, November 7-10 elected three City of Mississauga Recreation and Parks Department staff to their executive. Mr. Marc Neeb was elected and appointed Vice-President, Mrs. Donna Pounder elected and appointed Director of Membership Services and Mr. Randy Watson elected and appointed Director of Education Services.

To be elected by one's peers to the executive of their professional body is demonstration of existent trust in, and regard for, the expertise, dedication and personal attributes the individual embodies and can contribute to the duties of their respective office.

To have not one but three Mississauga staff members elected to the executive is not only unprecedented in the Society's thirty-seven year history but an indication of the high calibre of staff employed by the City of Mississauga in its Recreation and Parks Department. It is also an indication of the commitment of the City and the Department to the development and continuation of municipal recreation in this Province.

We acknowledge and thank you for allowing your staff to serve in this capacity.

Sincerely,

Roger Wyatt, rk

Dear Mayor McCallion:

Re: African Drought Relief

Please be advised that Calgary City Council at its Regular Meeting held 1984 November 19 dealt with the above noted matter and adopted the following resolutions:

"WHEREAS as many as 150 million people in 24 countries in Africa are facing critical needs as a result of a prolonged and continent-wide drought;

AND WHEREAS various international relief and aid agencies have launched a special appeal for an African drought relief and development program;

AND WHEREAS Section 212(1) of the Municipal Government Act gives City Council the authority to contribute funds toward such a program, provided that it is sponsored by a charitable organization.

NOW THEREFORE BE IT RESOLVED that:

1. Calgary City Council commend those Calgarians who have responded generously to the needs of people in other lands.
2. Council encourage all citizens in our community to contribute to the development and relief efforts being undertaken by non-government agencies throughout Africa.
3. Council commend the Minister of External Affairs, The Honourable Joe Clark, and the Federal Government for their response to the African Drought Relief Program.

4. The City of Calgary make an "in-kind" contribution to the Canadian Red Cross for its African development and relief program.
5. The amount of such a contribution be approximately equivalent to 2¢ per capita, i.e., \$12,500.00; and that Program 401 be amended accordingly.
6. That these efforts by the City be coordinated through the Mayor's Office and that a report be presented to Members of Council in six-month's time."

"That Council's resolution with respect to African Drought Relief be circulated to the Mayors of the major Canadian cities, and to the Alberta Urban Municipalities Association and the Federation of Canadian Municipalities for inclusion in their newsletters."

Dear Mayor McCallion:

***Available in Clerk's Office**
As you are aware, the Ontario Waste Management Corporation is currently involved in selecting both a site and facilities to treat and dispose of the province's industrial hazardous wastes. At the same time, we have embarked on a program to help industry find ways to reduce, reuse, recycle and recover useful materials from the special wastes it generates.

Waste reduction is an important element for an overall waste management system for Ontario. Over the past year, OWMC has taken three steps toward developing its waste reduction program. Earlier this year, we entered into an agreement with the Ontario Research Foundation to establish the Ontario Waste Exchange, a program aimed at actively pursuing waste exchange opportunities within this province. In April of this year, we hired a Manager of Waste Reduction, Mr. Ken Bradley, to spearhead our efforts in waste reduction. And finally, we commissioned a report to examine the barriers which currently inhibit waste reduction in Ontario. This report was produced by Resource Integration Systems Ltd. and Victor & Burrell Research. Printing the report has taken us longer than we expected but I'm now pleased to be able to send you a copy.

In the months ahead, we will be reviewing the recommendations contained in this report, in conjunction with the program Ken Bradley is now developing. We would be pleased to hear your comments about this report and about waste reduction in general. Please feel free to give Ken a call on this subject.

Sincerely,

Your letter of November 5, 1984 concerning the Ontario Good Roads Association's submission to Cabinet Committee on Resources Development with respect to the inadequacy of municipal road funding, is acknowledged.

I am well aware that increased funding would be most desirable to meet the needs of maintaining all road systems throughout the Province. The submission has assembled pertinent data on the condition of municipal roads and has pointed out the problems that the Government confronts in trying to meet the requirements of all Provincial programs.

Your Council may be assured that I will continue to make the views of municipalities known to my Cabinet colleagues during budgetary discussions.

DEC 10 1984
S.A. DATE

Dear Mesdames/Sirs,

Re: Proposed Official Plan Amendment and
rezoning - Matthews Group Limited
land, south of Burnhamthorpe Road
West, west of Hurontario Street

We are solicitors for Rogers Telecommunications Limited, the owners
of the lands to the west of the Matthews' Group lands.

We have received a copy of the Planning Department's report to
the Planning Committee dated November 27th, 1984. At page 8 and
9 of that report Planning Staff has addressed the issue of the
outstanding long-standing lack of resolution of location of the
parks and schools in the Dundas-Fairview Residential District.
In the report dated November 27th, 1984, it is suggested that
"it is likely that such consultative process will take a long
time to complete" and it is then recommended that a portion of
the Matthews development be approved. This approval is presumably
made on the basis that it will not jeopardize the subsequent
resolution of the parks/schools issue.

However, it is our client's position that there has been ample
opportunity for all parties concerned to reach an agreement on
schools and parks. We cannot assure our clients that allowing
a major portion of development to go forward at this point will
not jeopardize the principles of planning and the company's
ultimate interest in the development of these lands.

In the Planning Department's report dated June 21st, 1984, Mr.
Edmunds, the Commissioner of Planning, recommended approval of

Re: G.C. Rec. 1732-84

I-15-a

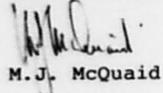

the application filed by the Matthews Group Limited, subject to (among other things)....."satisfactory arrangements regarding the location and extent of schools and park sites south of Central Parkway West and west of Confederation Parkway..."

It is our client's position that that was the appropriate recommendation that should have been made and that such arrangements among all the parties should be made before major development takes place within this area.

We therefore ask Council to re-endorse the recommendation made by Mr. Edmunds in the report dated June 21st, 1984 and require that satisfactory arrangements regarding the location and extent of schools and parks in the subject area be made prior to approval of any portion of the Matthews development proposal.

Yours very truly,

PRESS RELEASE

BACKGROUND INFORMATION

FOR IMMEDIATE RELEASE

The Peel Children's Foundation was established in 1981 to assist the needs of children's services in Peel and develop new program initiatives.

There are over 185,000 children (18 and under) living in Peel. That number is estimated to grow to over 275,000 by the year 2001. The Peel Children's Foundation is concerned with children's issues. It is primarily interested in children who are: physically and emotionally disabled; emotionally handicapped, abused and directionless and hopeless about the future.

In just three years it initiated a system to provide new mental health services for over 500 young people in Peel. These include:

more...

- 150 sexually abused children who received psychological assessments, group therapy and integrated treatment planning
- 70 children facing a lengthy waiting list for mental health services who were seen sooner through an experimental team assessment project that provided quick and comprehensive assessment to validate the need for seeing these children ahead of others on the waiting list
- 25 children who were provided with play therapy
- 100 children who received some form of individual counselling for serious emotional problems
- 125 psychological assessments that were provided through a network that allowed for improved case planning and treatment follow up.

The Peel Children's Foundation undertook a study to determine if more mental health services were needed. That study showed that existing assessment, counselling, group work, and family support services were stretched to their limit.

As a result, it was proposed that a network of mental health professionals be established to provide psychological services, child-centered counselling and inter-agency case planning. Called the Children's Resource Network, the system demonstrated a capacity to provide flexible mental health services to the most needy clients.

more....

The need still exists for more mental health services in Peel. Community support can help the Foundation expand the Children's Resource Network through the Region of Peel.

But mental health issues are not our only concern. Community contributions to the Peel Kid's Appeal will assist the Peel Children's Foundation in creating opportunities for children in our area. Your contribution will enable the Foundation to:

- * continue developing services for the sexually abused child \$82,000.
- * research housing issues affecting children 21,000.
- * research separation and divorce and the impact of single parent families 21,000.
- * look at the special needs of handicapped children 15,000.
- * develop a program of one to one volunteers working with physically disabled children 12,500.
- * help drug and alcohol awareness programs 2,500.
- * further develop early identification problems that enable children earlier access to needed treatment and support 7,500.
- * assist with transportation costs for children to get to needed services and treatment 23,250.
- * enrich programs offered by Boys and Girls Club of Peel 21,000.

Further information about the Peel Children's Foundation and the Peel Kid's Appeal is available at 273-3191.

Financial Support

The Peel Children's Foundation

Our Foundation receives funds from a variety of sources for the purpose of distributing these monies to various community organizations according to a specific time-limited contract.

We assume an on-going responsibility for the evaluation and continuation of all services that we fund.

Unlike traditional foundations which gives out funds, the Peel Children's Foundation is also a seeker of funds, and can be a partner with an agency which is seeking funds for needed services.

The Foundation may be supported by bequests, corporate business, individual charitable donations and other fund-raising activities. All funds are subject to an audit.

The Peel Children's Foundation is a registered charitable organization with a governing volunteer Board of Directors. For more information about our many services to the Peel Region contact the:

Programs

The Children's Resource Network

The first major undertaking of the Peel Children's Foundation was the Children's Resource Network. The Network provides highly specialized mental health services to local agencies which require additional resources for their clients.

A qualified child psychologist's assessment is critical in reaching a troubled child or adolescent before he or she gets in trouble with the law. The Children's Resource Network provides family assessments to help in the early identification of problems and solutions. Psychological and psychiatric assessments to aid in case planning are also completed.

The treatment, provided by social workers, psychologists, and child care workers include: family therapy; individual child therapy; and group counselling. Individual treatment plans for special cases, in home parent resources are provided, and prevention programs are encouraged.

Responding to the Needs of Community Agencies

Special government funds are administered by the Peel Children's Foundation to help reduce the costs of hard to serve cases and to provide monies for various programs that benefit children and the community.

The Foundation assisted in providing additional staff to agencies that were in urgent need of personnel. In 1982, a Court Assessment Worker, Field Worker, Probation After Care Worker, and a Volunteer Services Co-ordinator to help develop alternatives to custody for children in conflict with the law, were made available to various agencies through the Foundation's efforts.

The Need

The Peel Children's Foundation: Focusing on the Needs of Children in the Region of Peel

As the Region of Peel's population grows, so does the number of children needing mental health care. Unfortunately, there has been a decrease in the funds available to social service agencies for these children.

The Peel Children's Foundation was formed to stimulate the community's existing services to children and sound a collective voice in advocating the need for an increase in services to children in the Region of Peel.

Promoting and developing services for children and families in the Region of Peel are the primary goals of the Foundation. Our organization encourages existing community agencies in Health, Education, and Social Services to develop and expand their services to children and to initiate needed alternatives.

The Peel Children's Foundation is made up of a Board of Directors, accountable to a general membership, and a small staff to carry out administrative details.

COMMENTS:

Following is a summary of the tenders received and opened
at the Public Tender opening on Tuesday, November 20th,
1984:-

Reed Stenhouse Limited \$583,556.

Although tender documents were picked up or mailed to
twelve (12) Insurance Brokers or Agents, the tender from
Reed Stenhouse Limited was the only one submitted. As far
as we can determine, this may be due to the very limited
and expensive reinsurance market at the present time.

The tender was found to be in order and meets our
specifications; Funding to be provided in the 1985 Current
Budget.

RECOMMENDATION:

That the tender for the following types of insurance for
the period January 1, 1985 to January 1, 1986 be awarded to
Reed Stenhouse Limited -

(a) Comprehensive General Liability (Errors & Omissions included)	\$186,000.
(b) Umbrella Insurance	47,222.
(c) Excess Umbrella Insurance	5,667.

COMMENTS: As a condition of site plan approval for the above noted project, the applicant has agreed to do streetscape improvements on municipal lands in the boulevard abutting this property.

Due to the uncertain length of time it will take for approval of the works on municipal lands, by the Public Utilities Co-ordinating Committee landscape approval of the streetscape improvements has been deferred at this time. All other landscape aspects within of the site were approved on November 20, 1984.

To expedite the issuance of the building permits we requested the applicant to enter into an agreement with the City supported by a Letter of Credit in the amount of \$7,000.00 which equals 100% of the cost of the streetscape improvements. This is to ensure the works will be done.

SUBJECT: Reduction in Letter of Credit for Pinetree Development Subdivision, Plan 43M-449, located north of Britannia Road and west of Tomken Road.

ORIGIN: Servicing Agreement between Pinetree Development Co. Ltd. (155 University Avenue, Penthouse, Toronto, Ontario M3H 3S7, Attention: Mr. B. Beaton, C.A.), The City of Mississauga, and The Region of Peel dated June 18, 1981.

COMMENTS: Further to our report to Council dated November 7, 1984, the amount set out in the Letter of Credit to be retained was in error for Plan 43M-445. We had recommended a reduction in the securities in the normal manner to cover the value of the outstanding works in the Engineering Agreement; however, we did not realize that the outstanding levies were also secured in this Letter of Credit. This is an unusual situation as the levies for an industrial plan of subdivision spread over a period of time in accordance with City policy are not secured by Letter of Credit; however, due to the fact that we already have securities to cover same we feel that the status quo should remain.

Recommendation No. 736-84, adopted by Council November 26, 1984 should be revised to reflect a new value of \$746,327.56. This will now cover the additional \$238,000.00 still outstanding for the Major Road Improvement Levy for this plan of subdivision.

RECOMMENDATION: That Recommendation No. 736-84 be revised to permit the current Letter of Credit, valued at \$973,038.10, for Plan 43M-449, located north of Britannia Road and west of Tomken Road be reduced to \$746,327.56.

CPA Dec 10/84

SUBJECT: Barbertown Road

SOURCE: Councillor T. Southorn

COMMENTS: Councillor T. Southorn has requested that consideration be given to the permitting of parking on Barbertown Road between December 14 and December 31, 1984, to accommodate overflow parking from the Mississauga Gospel Temple.

Currently parking is prohibited on the north side of Barbertown Road from Mississauga Road to the Credit River. It has been requested that parking be permitted on the north side of Barbertown Road between Amana Place and the McCarthy Mill Spur Line.

The Engineering and Works Department has reviewed this request and feel that it can be accommodated while maintaining two lanes of traffic on Barbertown Road albeit with reduced lane widths. The easiest way to accomplish this would be for the Engineering Department to cover up the existing 'NO PARKING' signs on the north side of Barbertown Road in the subject area since the existing by-law prohibiting parking is not in effect unless the authorized signing is in place.

The rationale behind this request is to provide additional parking for the church services through the Christmas Season and therefore the recommended parking permission is only temporary in nature. The Ward Councillor is also discussing the provision of additional parking during this time on the McCarthy Mill property.

RECOMMENDATIONS:

1. That parking be permitted on the north side of Barbertown Road between Amana Place and the McCarthy Milling Spur Line between December 14 and December 31, 1984.
2. That the Engineering and Works Department cover up existing 'NO PARKING' signs on the north side of Barbertown Road between Amana Place and the McCarthy Milling Spur Line between December 14 and December 31, 1984.
